Ravindra Pratap Singh

AI-Native Growth & Product Designer - I make designs that *convert.*

+91-9351639077 | singhravindrapratap812@gmail.com | **heyrav.in** | linkedin.com/in/rps-bhanawat

Summary

AI-native designer with 2+ years in performance marketing for The Ayurveda Experience, a D2C wellness brand with 2.1M customers in 25+ countries. I use AI across the workflow, from agentic ad tools and Claude skills my team uses daily to shipping my own designs as code. My landing-page redesigns lifted conversion 3X or more with copy unchanged, and I built a dental-clinic SaaS now live in 34 clinics.

AI Skills

Agentic AI systems: designing and building LLM-powered tools with data and feedback loops (TAE Ad Studio)

AI-assisted development: Claude Code, vibe coding, design-to-code prototyping, shipping production web apps

AI workflows & automation: Claude skills, prompt engineering, AI creative production, AI localization at scale

AI for UX & CRO: AI-assisted heatmap and funnel analysis, rapid variant generation for A/B testing

Work Experience

Creative Designer, Performance Marketing May 2024 – Present

Transformative Learning Solutions (The Ayurveda Experience), Gurugram

AI systems and team enablement

- Conceived and built **TAE Ad Studio**, an agentic content engine that reads performance data, generates on-brand ad concepts and variants, localizes them by market and learns from reviewer feedback.
- Built **10+ Claude skills** that the team uses daily for creative, copy and page builds, and moved landing pages from page builders to AI-built coded HTML, **cutting translation time by over 80%**.
- Initiated AI workflows for creative generation, landing-page builds and UX analytics, and trained colleagues to use them across teams.

Herbius supplement launch: designer and strategist

- Launched Herbius Ashwa Resin and Herbius Shilajit across the US, UK, Italy, Netherlands, France and Hong Kong, repositioning a men's category for women over 40.
- Tested five customer angles through Meta ads and scaled the winner **15X** in monthly creative volume, using AI production to reach 225+ live creatives in three languages.
- Designed packaging from dieline to press, plus localized landing pages, bundles, upsells, and Amazon and TikTok Shop listings.

Landing-page CRO and performance creative | case study

- **ViewRyt (US):** diagnosed a loss-making sales page with heatmaps and a hierarchy audit, then rebuilt it with identical copy: **3.2X conversion rate** and **4X+ earnings per visitor**. Turned funnel profitable and helped scale spend through it.
- **Nail n Mane (Hong Kong):** localized and redesigned the product page: **3.6X conversion rate** and **4X earnings per visitor**.
- Designed 100+ Klaviyo email campaigns and prospecting creative that **beat its ROAS target by 11%**.

Projects

Dentomate | Product lead and go-to-market | dentomate.in case study 2025 – Present

- Practice software for Indian dental clinics (records, WhatsApp prescriptions, one-click recall), researched with dentists and built with AI.
- **Live in 34 clinics**; pilot clinics saw **30% more return visits**.

IRBS, IIT Guwahati | Lead Designer | case study 2023

- Researched and designed a three-step room-booking flow for a 7,000-student campus, replacing a broken legacy portal. Live since September 2023.

Skills

Growth & CRO: conversion rate optimization, landing pages, A/B testing, heatmap analysis, performance marketing, Meta ads, email marketing, localization

Product & UX: user research, information architecture, interaction design, prototyping, design systems, packaging design

Tools: Claude, Claude Code, Figma, Framer, Adobe CC (Photoshop, Illustrator, After Effects), MS365, Shopify, Klaviyo, Meta Ads Manager, HTML, CSS, Github

Education

Indian Institute of Technology Guwahati | B.Tech, Civil Engineering | CGPA 8.41 2020 – 2024

Secretary, Fine Arts Club: led the team to 1st place in Graphic Design at Inter IIT Cultural Meet 5.0.
